APPENDIX.

TERMS OF ADMISSION.

CANDIDATES for admission to the Freshman, or lowest class, are examined in Cæsar's Commentaries (5 books), Sallust, Virgil (Eclogues, and six Books of the *Æneid*), Cicero's Select Orations contained in the volume in *Usum Delphini*, Mair's Introduction to Latin Syntax, the Gospels in the Greek Testament, Dalzel's *Collectanea Graeca Minora*, or Jacob's Greek Reader, or other Authors equivalent in quantity, together with Latin and Greek Grammar, including Latin Prosody; also, on English Grammar Arithmetic, the Elements of Algebra, (through simple equations), Geography, ancient and modern.

Every student admitted to a class higher than the Freshman, is examined on all the previous studies of the class which he wishes to enter.

An accurate and thorough acquaintance with the studies required for admission is indispensably necessary, in order to receive the full advantage of the College course.

It is found from experience, that Students imperfectly prepared, for the classes which they enter, are embarrassed in their future progress—and are seldom able to repair the want of solid preparatory instruction.

To prevent disappointment it should be distinctly understood, that an accurate and thorough knowledge of preliminary studies is more likely to ensure admission and to enable the Student to improve the advantages of this Institution, than a superficial acquaintance with some higher branches of literature and science.

In all cases testimonials of moral character are required; and if the Student has been a member of another College he must bring with him a certificate from the President or Faculty, that he is free from censure in that institution.

COURSE OF INSTRUCTION.

THE whole course of instruction requires four years ; namely, one year in each of the four classes into which the Students are divided.

The Freshman and Sophomore Classes are instructed by the Professors of Ancient and Modern Languages and of Mathematics, aided by the Tutors. The Junior and Senior Classes by the President and Professors.

The studies of the several Classes are as follows :

Zoology,	Dr. SCHANCK.

Gentlemen not connected with the College have the privilege of attending the above lectures by making application to the several lecturers.

Other lectures are frequently given at the same hours in which the recitations are heard, and are therefore attended by none except the members of the several Classes.

EXAMINATIONS.

Four public examinations take place during the College year: one in the middle, and one at the close of each session. Absence from these examinations is found to be very injurious to the improvement of a student, and renders him liable to be placed in a lower class. Reports respecting the behavior, and scholarship of the students, are sent to the parents or guardians after each examination.

English Grammar, Arithmetic, and Geography, being required for admission, are not included in the College course of instruction; but in order to secure attention to these studies, indispensably necessary in every situation of life, the Classes are examined on them twice a year, and deficiencies, if any exist, are reported to parents and guardians.

PUBLIC WORSHIP.

PRAYERS are offered in the College Chapel every morning and evening, when one of the Faculty officiates, and all the Students are required to be present. They are also required to attend worship in the Chapel on Sunday, except such as have the permission to attend service in town.

LIBRARIES.

THE College Library contains ten thousand volumes, and is opened on Monday and Tuesday of each week for the accommodation of the Students. Resident Graduates have the privilege of taking out books upon the same terms as Under Graduates. In the libraries belonging to the two literary societies there are nine thousand volumes. The total number of volumes, therefore, in the three libraries, is nineteen thousand.

APPARATUS.

THE College possesses a valuable set of Astronomical, Philosophical and Chemical Apparatus, a well-selected Mineralogical Cabinet, a Museum of Natural History, a large collection of drawings for the illustration of the lectures on Architecture, Natural Philosophy, Astronomy, and a full-sized Maniken for the illustrations of the lectures on Natural Theology and Anatomy.

EXPENSES.

THE stated Expenses of the College each session, paid in advance, including Tuition, Room Rent, Fuel, Library, Servant's Wages, Washing are \$55.50.

A deduction of \$3.00 from the above bill, is made in favour of those students who dispense with all attendance of servants in their private rooms.

The price of Board in the College Refectory, for the First Term of 19 weeks is \$57.00, and for the Second Term of 21 weeks is \$63.00.

Students are permitted to take their meals in private families, and in this case boarding varies from \$2.25 to \$3.50 a week. In some cases select clubs of students have been formed, whose expenses do not exceed \$2.00 a week; while the arrangements for the purpose are perfectly satisfactory, and by some preferred to every other. Besides these economical arrangements, the College has the control of funds, for the aid of candidates for the ministry.

No student is permitted to take a room or to lodge out of the College buildings unless all the rooms belonging to the College are occupied.

New students pay a matriculation fee of five dollars and thirty-three cents for a copy of the printed laws.

When a student is dismissed from College for any cause, the whole amount advanced for board, washing, and fuel, from the time of dismissal will be refunded to the order of his parent or guardian.

TERMS AND VACATIONS.

THE College year is divided into two Terms or Sessions. The Annual Commencement is on the last Wednesday in June, and the first term of the next College year begins the 10th of August and closes on Thursday the 21st of December. The second term begins on Thursday the 1st of February, and ends on the last Wednesday in June—the day of the Annual Commencement.

It is particularly recommended that when practicable, all the students spend their vacations at home with their parents or friends; or when this is inconvenient, that they take boarding elsewhere than in Princeton. It is found that when a number of young persons are collected together without regular occupation or study, the temptations to idleness and dissipation are often too strong to be resisted.

It is highly important that the students should return to College in time to attend the first recitations or lectures of their respective classes, since an absence of a few days at the time when a new branch of study is commenced, seldom fails to embarrass the whole course, and in some cases it is impossible to make up the loss.

PUBLIC EXERCISES.

THE ANNUAL COMMENCEMENT takes place on the last Wednesday in June.

On the day preceeding the Commencement an oration is delivered before the two Literary Societies by a member of one of them. The orator for the current year is PHILIP R. FENDALL, Esq., of Washington City, D. C., a member of the Philosopie Society.

On the evening preceeding the Commencement, orations are pronounced by eight members of the Junior Class, four from each Hall.

The Annual Meeting of the Alumni Association of Nassau Hall is held in the College Chapel on Commencement day.

Communications for this Society may be sent to W. C. Alexander, Esq., Princeton.
